

3 – 6 may 2012

PRESENTATION COMPETITION “48 HOURS”

A new challenge. A new adventure. A great prize.....at the height of the people who will create, to invent, dare, give originality. It is a different undertaking but with objectives and important results. Mantovadanza 2012 launches a new challenge, and propose a new competition open to companies, groups and schools of dance, without distinction of age or styles. The skill, technique and preparation course will be at the base, especially in the semifinals. But this is not enough! What will the difference will be the creativity, originality, the ability to react quickly to a stimulus, a request to invent, to create a new piece in relation to a new theme that only those who will enter the final phase will know. The theme statement by the president of the jury will be the starting point of your new job. Two days,48 hours, to face the final challenge with a new choreography..... The most original, the most innovative and relevant to the theme will be winner. You pull out your best gifts. You may not sleep at night, try on the road, on the stages in the open air, in the room a few hours.....and perhaps even you are surprised to yourselves, that what you will be able to invent. We, for our part, we are convinced that the best gifts of dancers and choreographers should not be in the preparation of a piece in the long thought tried and retried, tested on many occasions..... and in several stages,.....and on different boxes, on many occasions and we believe that gifts are also those that may emerge in a extreme situation, adrenaline, difficulties, stress.....the pulled out the best and take up the challenge. Do you accept?
